

Food and Nutrition Services

Good Nutrition and Learning Go Hand and Hand

Alachua County Public Schools Food & Nutrition Service (FNS) provides students with access to a variety of affordable and appetizing foods that meet their health and nutrition needs. Our menus follow the nutrition requirements of the USDA School Meal pattern. The menus are designed by a Registered Dietitian and recipes are developed by our District Chef. Fresh produce from local farmers is offered as part of the daily meals.

Last school year 2.4 million lunches and 1.1 million breakfasts were served in our schools! Our meals are taste tested "For Students ...By Students" to ensure that we offer foods that they will love. Give school lunch a try if your child does not eat in the school Café already! Parents are welcome to join their children for lunch at any time.

Prepayment for Meals Made Easy

FNS partners with www.mylunchmoney.com for online prepayment options. You can check your child's account balance, view what your child has purchased and get reminders when your child's account balance is low. You also have the option to send money or a check to school with your student. Please place in an envelope marked clearly with your student's name, ID#, Teacher's Name and turn in to the cafeteria staff or school office.

Free and reduced price meals are provided to students who qualify. We encourage you to take advantage of our parent friendly on-line Family Meal Application for faster processing. Visit www.acpsfood.com to access the online meal applications. Hard copy applications are also available at your child's school.
