

Letter to Physician/Medical Authority
Requesting Instructions for Meal Substitutions for Disabilities, Allergies or Intolerances

Chesterfield County School District
School Food Services
401 West Boulevard
Chesterfield, SC 29709

August, 2015

Dear Physician or Medical Authority:

To allow the school food service department to comply with the USDA Child Nutrition Program regulations for meeting a student's special dietary needs, information must be provided using one of the enclosed forms. Please select the form to be completed based on the descriptions provided:

1. **Medical Statement for Student with Disability Requiring Special Meals:** A student with a disability is to be provided substitutions in foods only when supported by a statement signed by a physician licensed by the state. A "disabled person" means any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such an impairment or is regarded as having such an impairment. The supporting statement must identify:
 - a. The individual's disabling condition and an indication how the disability restricts the child's diet;
 - b. The major life activity affected by the condition;
 - c. The food or foods to be omitted from the child's diet and the food or choice of foods that must be substituted.

OR

2. **Medical Statement for Student with Food Allergy or Intolerance:** A school will withhold and, at its discretion, may make substitutions for a student who is NOT disabled but is unable to consume food items because of food intolerances or allergies. A recognized medical authority, such as a physician, physician's assistant or nurse practitioner, must sign a supporting statement. The supporting statement must include:
 - a. An indication that the medical or other special dietary need restricts the child's diet and
 - b. The food or foods to be omitted from the child's diet and
 - c. The food or choice of foods that may be substituted.

Until complete information is received from your office, the student's special diet cannot be implemented. Your timely assistance is appreciated.

It is extremely important for the parent/guardian to sign the Medical Statement. If the student's school needs to clarify the diet prescription, the physician or medical authority can provide further information **ONLY** if the parent/guardian has signed the Medical Statement. Please retain a copy of the completed Medical Statement with your medical records for the student.

If you have questions or need assistance, please call Missy Brown at 843-623-2179.

Sincerely,

Missy Brown
School Food & Nutrition Services Coordinator

Medical Statement for Student Requiring Special Meals Due to Food Allergy or Intolerance

Student Name: _____

District: _____

Birth Date: _____

School: _____

Parent Name: _____

School Contact: _____

Address: _____

School Address: _____

Phone: _____

School Phone: _____

To be completed by a recognized medical authority (i.e. a licensed physician, physician's assistant or nurse practitioner)

The school is not required to provide substitutions for an allergy or food intolerance, and is permitted to do so **ONLY** when omitted foods and appropriate substitutions are specified by a medical authority. If diet modifications are implemented by the school, they will continue until a medical authority specifies that they should be changed or stopped. Parents/guardians are asked to annually request updated instructions for diet modifications from a medical authority.

- Student has a disability affecting the diet that meets the definition of "disability" as described on the reverse side of this form. If yes, complete Medical Statement for Student Requiring Special Meals Due to Disability.

Diet Prescription (check all that apply):

- Milk/Dairy Products Allergy – No fluid cow's milk or any other food product made with cow's milk such as cheese, yogurt, dried milk powder, etc. * * * If student has a fluid milk intolerance, then please complete Form 21-G, Request to Omit Fluid Cow's Milk.
- Other (describe): _____
- Food allergies – Please check appropriate box(es): ingestion contact inhalation

List the specific food(s) to be omitted and food(s) that may be substituted. If more space is needed for omitted foods or substitutions, please continue on reverse side of form. Specific foods to be omitted and specific foods to be substituted must be listed below or this statement will be returned to the physician/medical authority for clarification.

Definition of Disability:

Federal regulations governing the Child Nutrition Programs provide that schools must make substitutions in breakfasts, lunches and afterschool snacks for students who are considered to have a disability and whose disability restricts their diet.

Under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA), a "person with a disability" means "any person who has a physical or mental impairment which substantially limits one or more major life activity, has a record of such impairment, or is regarded as having such an impairment." The term "physical or mental impairment" includes, but is not limited to, such diseases and conditions as:

- Cancer
- Cerebral Palsy
- Drug addiction and alcoholism
- Emotional illness
- Epilepsy
- Food anaphylaxis (severe food allergy)
- Heart disease
- HIV
- Mental retardation
- Metabolic diseases, such as diabetes or phenylketonuria (PKU)
- Multiple Sclerosis
- Muscular Dystrophy
- Orthopedic, visual, speech and hearing impairments
- Specific learning disabilities
- Tuberculosis

The Individuals with Disabilities Education Act (IDEA) includes the following conditions:

- Autism
- Deaf-blindness
- Deafness or other hearing impairments
- Emotional disturbance
- Mental retardation
- Multiple disabilities
- Orthopedic impairments
- Other health impairments due to chronic or acute health problems, such as asthma, diabetes, nephritis, sickle cell anemia, a heart condition, epilepsy, rheumatic fever, hemophilia, leukemia, lead poisoning, or tuberculosis
- Specific learning disabilities
- Traumatic brain injury
- Visual impairment, including blindness which adversely affects a child's educational performance
