- Ready-to-eat (RTE) breakfast cereal:
1 oz of product -or- 1 cup flakes or rounds, 1.25 cups puffed cereal, ¼ cup granola provides 1 oz eq credit.
- Oatmeal: 1 oz of dry product -or- ½ cup cooked cereal provides 1 oz eq credit.

AND

Element 2: The food must meet at least one of the following requirements:

- a. The volumes or weights listed must be offered to credit as 1 oz eq and whole grains must be the primary grains.
- b. The product includes a FDA approved whole-grain health claim on it's packaging.
- c. The product ingredient declaration lists a whole grain first. Products in which whole-grain content comes from multiple ingredients can meet the whole grain-rich criteria when all whole grains combined are the primary ingredient by weight.

** Non-creditable grains should be limited to no more than 6.99 grams per 1 oz eq credit.
