Features / Benefits

- A smooth, creamy butter ideal for spreading on bread, crackers, muffins, bagels, and as an ingredient.
- Carriage House only uses Grade A peanuts producing a clean, fresh tasting product, with no rancid flavor.
- Our Proctor Silex roaster/peanut sorter produces a uniform roast standardization, correlating to USDA preferred color standard #3.
- CHC PET plastic packaging is shatter resistant, attractive, easy to handle, and offers extended shelf life.
- Peel off foil seal ensures freshness, quality, as well as tamper evidency for safety.
- Member of The American Peanut Council; www.peanutsusa.com

Product Cutting

- After removing the seal, aroma should be indicative of fresh roasted peanuts and not a rancid, "old oil" odor.
- A slightly oily sheen is preferred; too much oil indicates understabilized, improperly processed, soft product. Lack of sheen is caused by overstabilization resulting in dryness, firmset and a sticky mouthfeel.
- Cut a cone approximately 2-3 inches long, look for speckiness (excess skins), as well as uniform color.
