Get to Know the New D.T.S.D. Food Service Department!

While the needs of today's students are rapidly shifting, our commitment to Serving Education Everyday will never change. We are continuing to raise the bar on student nutrition and find innovative ways to meet the needs of our students.

Check out our website conveniently located under the Services & Support tab of the Derry Township School District website at <http://www.hershey.k12.pa.us>. We have extensive information available on our home page and or under the what's new button at the bottom of our home page.

The information below is just a small sampling of what we have planned for the new school year:

- *More menu variety!* Our Fall menu cycle begins the middle of September. We will also introduce our new winter and spring menu cycles to provide more variety!
- New Grab & Go Salads offered daily. Each week we will also feature new pasta style Chef Salads.
- Increased variety of fresh fruits and vegetables.
- New Big Daddy New York Pizza offered every Monday!
- New and exciting hot vegetable blends.
- Increased variety of grains and specialty side dishes!
- New Flavor Lab stations will be added to each cafeteria. Students can add a bit more seasonings to their food and customize it just like they want from over 6 different sodium free seasonings.

NEW Breakfast Program

Our new breakfast program was a huge hit with the students last school year and we are making some changes to get more students involved in this great program. For only \$2.25 per day, students can choose from a selection of breakfast items that not only meet the USDA's nutrient standards but also gives them the fuel they need for their day! Check out our new breakfast menu coming this Fall.
