

Elk Grove USD Food & Nutrition Services Guidelines for Food & Nutrition Service (FNS) Meal Pick-up

General Guidelines

- Stay home if you are sick.
- Wear a face covering over your nose and mouth in order to protect others.
- Practice good hand washing hygiene.

Meals are for any child, 18 years and younger, regardless of eligibility for the Free or Reduced Meal Program or school of attendance.

Meal Distribution Sites

For families picking up meals by car:

- Do not park or get out of your car to pick up meals.
- Have your window rolled down to be ready to communicate the number of meals needed.
- Whenever possible, FNS staff will provide meals by way of a cart. Driver or passenger, depending on location of cart, will reach out and take meals off the cart.
- For sites where cart service is not available, FNS staff will hand one side of meal package to outstretched arm of person in car. The goal is to eliminate as many "touch points" as possible.

For families walking with children to pick up meals:

- Please remember to practice social distancing and line up 6 ft from the designated pick up spot. Remember to also wait 6 feet behind the person in line ahead of you.
- FNS staff will call you up to the table to collect your meals.
- If your children are walking to the site on their own, please remind them of the importance of social distancing.
- If you are walking, please leave the school premise as soon as possible.

For both meal service options, children must be present or validation must have been met to receive meals without the child present. Children must be present for the initial validation process.
