Health and Learning Success Go Hand-in-Hand

Students who get regular physical activity often perform better in the classroom. Children need at least 60 minutes of physical activity every day. Encourage your child to be active and help them eat a colorful variety of fruits and vegetables.

Produce Tips

- Look for bright orange and red-colored persimmons with smooth skins and leaves still attached.
- Ripe Fuyus are firm and stay fresh for up to three weeks at room temperature. For longer storage, keep refrigerated.
- Ripe Hachiyas are soft and may be slightly wrinkled or have a few brown spots. Store at room temperature and use within a few days.
- To ripen firm Hachiyas, place in paper bag with an apple or banana.

Helpful Hint: Hachiyas are mostly used in baking and can be eaten by scooping the flesh out with a spoon.
