

Dear Parents,

In order for parents to control their student's purchases, the cafeteria software allows students to purchase **meals only** OR **meals and a la carte** items. If you chose for your child to purchase **meals only** on the cafeteria deposit slip, but occasionally will allow them to buy a snack, we are requiring that your child bring in a note that day along with cash to purchase their snack. This signed note must state the date, your child's name, school and that they may purchase a snack. It is cafeteria regulations that a student may only purchase one snack a day.

Please note: this cash purchase will not show on your child's account due to the software restrictions. Parent notes are only required for students designated as "**meals only**" on the cafeteria software. Thank you for taking the time to help us honor your wishes. If you have any questions please contact the food service department at 610-889-2125 x 51979

Sincerely,

Nicole Melia
Food Service Supervisor

Sample Snack Note:

I have designated "**meals only**" on my student's cafeteria account. Please allow my student to purchase a snack with cash today.

Student Name: _____

School: _____

Date: _____

Parent Signature: _____
