

Jennings County School Corporation

Bylaws & Policies

8510 - WELLNESS

As required by law, the School Board establishes the following wellness policy for the School Corporation as a part of a comprehensive wellness initiative.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the Corporation's students. Furthermore, research suggests that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

Schools alone, however, cannot develop in students healthy behaviors and habits with regard to eating and exercise. It will be necessary for not only the staff but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

A. With regard to nutrition education:

1. Nutrition education shall be included in the health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
2. Nutrition and healthy living skills shall be taught as part of the regular instructional program and provides the opportunity for all students to understand and practice concepts and skills related to nutrition, health promotion and disease prevention

B. With regard to physical activity:

1. Physical Education

- a. A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with the physical education academic content standards and benchmarks adopted by the State.

- b. The physical education curriculum shall provide sequential instruction related to the knowledge, attitudes, and skills necessary to participate in lifelong, health-enhancing physical activity.
- c. The K-12 program shall include instruction in physical education as well as opportunities to participate in competitive and non-competitive team sports to encourage lifelong physical activity.

2. Physical Activity

- a. Physical activity and movement shall be integrated, when possible, across the curricula and throughout the school day.
- b. The school shall encourage families and community organizations to help develop and institute programs that support physical activity of all sorts.
- c. In addition to planned physical education, the school shall provide age-appropriate physical activities (e.g., recess during the school day, intramurals, and clubs before and after school, and interscholastic sports) that meet the needs of all students, including males, females, students with disabilities, and students with special health care needs.
- d. Schools shall offer a wide range of physical activities outside the regular school day that meet the needs, interests, and abilities of all students, including males, females, students with disabilities, and students with special healthcare needs.

C. With regard to other school-based activities:

- 1. The schools shall schedule mealtimes so there is minimum disruption by bus schedules, recess, and other special programs or events.
- 2. The school shall provide attractive, clean environments in which the students eat.

3. Activities, such as tutoring or club meetings, shall not be scheduled during mealtimes, unless students may eat during those meetings.
4. Students, parents, and other community members shall have access to, and be encouraged to use, the school's outdoor physical activity facilities outside the normal school day.
5. An organized wellness program shall be available to all staff.
6. Schools in our system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
7. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about allergies and other restrictions on some students' diets.

D. With regard to nutrition promotion, any foods and beverages marketed or promoted to students on the school campus, during the school day, will meet or exceed the USDA Smart Snacks in School nutrition standards.

Additionally, the Corporation shall:

1. encourage students to increase their consumption of healthful foods during the school day;
2. provide opportunities for students to develop the knowledge and skills for consuming healthful foods.

Furthermore, with the objectives of enhancing student health and well being, and reducing childhood obesity, the following guidelines are established:

- A. In accordance with Policy [8500](#), entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages as well as to the fiscal management of the program.
- B. The sale of foods of minimal nutritional value in the food service area during the lunch period is prohibited.

- C. As set forth in Policy [8531](#), entitled Free and Reduced Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).
- D. The sale to students of foods and beverages that do not meet the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards to be consumed on the school campus during the school day is prohibited. Competitive foods available for purchase by students à la carte in the dining area, foods, or beverages sold from vending machines.
- E. All foods that are provided, not sold, on the school campus during the school day, including foods and beverages provided for classroom parties or holiday celebrations shall comply with the food and beverage standards approved by the Superintendent.
- F. All food items and beverages available for sale to students for consumption on campus between midnight and thirty (30) minutes after the close of the regular school day shall comply with the current USDA Dietary Guidelines for Americans, including, but not limited to, competitive foods that are available to students à la carte in the dining area, as well as food items and beverages from vending machines, school stores, or fund-raisers by student clubs and organizations, parent groups, or boosters clubs.
- G. Any food items sold for consumption on campus from thirty (30) minutes after the end of the last lunch period until thirty (30) minutes after the school day ends in a fundraiser by approved student clubs and organizations and Corporation support organizations shall meet the current USDA Dietary Guidelines for Americans.
- H. The food service program shall be administered by a qualified nutrition professional.
- I. The food service program shall be administered by a director who is properly qualified, certificated, licensed, or credentialed, according to current professional standards.
- J. All food service personnel shall receive pre-service training in food service operations.
- K. Continuing professional development shall be provided for all staff of the food service program.

The Board designates the Superintendent as the individual(s) charged with operational responsibility for measuring and evaluating the Corporation's implementation and progress under this policy.

The Superintendent shall appoint a Corporation wellness committee that includes parents, students, representatives of the school food authority, nutritionists or certified dieticians, educational staff (including health and physical education teachers), mental health and social services staff, school health professionals, the School Board, school administrators, and members of the public to oversee the development, implementation, evaluation, and periodic update, if necessary, of the wellness policy.

The wellness committee shall be an ad hoc committee of the Board with members recruited and appointed annually.

The wellness committee shall:

- A. assess the current environment in each of the Corporation's schools;
- B. measure the implementation of the Corporation's wellness policy in each of the Corporation's schools;
- C. review the Corporation's current wellness policy;
- D. recommend revision of the policy, as appropriate; and
- E. present the wellness policy, with any recommended revisions, to the Board for approval or re-adoption if revisions are recommended.

Before the end of each school year the wellness committee shall submit to the Superintendent and Board their report in which they describe the environment in each of the Corporation's schools and the implementation of the wellness policy in each school, and identify any revisions to the policy the committee deems necessary. In its review, the Wellness Committee shall consider evidence-based strategies in determining its recommendations.

The Superintendent shall report annually to the Board on the work of the wellness committee, including their assessment of the environment in the Corporation, their evaluation of wellness policy implementation Corporation-wide, and the areas for improvement, if any, that the committee identified. The committee also shall report on the status of compliance by individual schools and progress made in attaining goals established in the policy.

The Superintendent also shall be responsible for informing the public, including parents, students and community members, on the content and implementation of this policy. In order to inform the public, the Superintendent shall include information in the student handbook and post the wellness policy on the Corporation's website, including the assessment of the implementation of the policy prepared by the Corporation.

The Corporation shall assess the Wellness Policy at least once every three (3) years on the extent to which schools in the Corporation are in compliance with the Corporation policy, the extent to which the Corporation policy compares to model wellness policies, and the progress made in attaining the goals of

the Corporation Wellness Policy. To ensure continuing progress, the Corporation will evaluate implementation efforts and their impact on students and staff.

The assessment shall be made available to the public on the School Corporation's website.

Food and beverage marketing that allow marketing and advertising on only those foods and beverages that meet the Smart Snacks in School nutrition standards.
