

Can I just drop off a note at my student's school cafeteria from myself or the doctor to get an alert put on my student's meal account?

- At this time we do not accept doctor's notes, prescriptions, or parent notes requesting an alert be put on a student's meal account.
- All alerts require a signed Physician's Diet Modification form that must be received by the Dietitian at the Nutrition and Food Services office. Cafeteria managers are unable to process any requests or documents.
