Definition of Disability:

816-986-2215

Under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA), a "person with a disability" means "any person who has a physical or mental impairment which substantially limits one or more major life activity, has a record of such impairment, or is regarded as having such an impairment."

Major life activities covered by this definition include caring for one's self, eating, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, working and major bodily functions. The term "physical or mental impairment" includes, but is not limited to, such diseases, conditions, and functions as:

Orthopedic, visual, speech and hearing impairments	Cardiovascular, circulatory and heart
 Cerebral Palsy, Epilepsy, Muscular Dystrophy, and Multiple Sclerosis 	• Metabolic and endocrine
• Digestive, bowel and bladder	 Food anaphylaxis (severe food allergy)
Neurological and brain	Mental retardation
Respiratory	Emotional illness
Cancer	Drug addiction and alcoholism

Individuals who take mitigating measures to improve or control any of the conditions recognized as a disability are still considered to have a disability and require an accommodation.

If interested in being evaluated for eligibility under Section 504 by the Lee's Summit Schools, please contact student's school of attendance.
