Process for Requesting Accommodations for Special Dietary Needs

adheres to specific USDA guidelines in

providing special diet accommodations for students. In accordance with the criteria set forth in <u>7 CFR Part 15b</u>, those students who are unable to eat the school meal due to a disability/medical need/or impairment are accommodated, at no additional charge. Dietary needs due to lifestyle and religious reasons are important to our school but not a requirement by USDA to make accommodations. Our school will try to accommodate lifestyle and religious needs through our current menu choices. Please review the following information if your child requires special diet consideration.

Per <u>Section 504 of the Rehabilitation Act of 1973</u>, parents have a right to an evaluation of your child if the district has reason to believe that your child has a mental or physical impairment that substantially limits a major life activity, which can involve eating/digestion. You have the right to this evaluation before any plan for accommodation.

The steps in the process to request special accommodations are 1) for the parent(s)/caregiver(s) to complete the Special Dietary Needs Medical Statement Form and immediately return to the school; 2) the school will review and process the request; 3) the form may be returned to parent/guardian for additional medical signatures. For example, if the substitutions needed for accommodations fall outside of the USDA meal pattern, the Medical Statement form must be signed by an authorized medical authority with prescriptive privileges in the state of Indiana, and 4) accommodations will be adjusted accordingly based on review.

Procedural Safeguards
