DID YOU KNOW?

- Tangerines are high in vitamins C (helps heal wounds and promotes healthy teeth and bones) and A (improves eye function).
- Satsuma Tangerines are native to Japan. First cultivated in the Kyushu Island in the 14th century, they were introduced to the United States in 1876.

-FARM FACTS-

- Johnston Farms started 70 years ago and is now a fourth generation family farm.
 - In addition to citrus, Johnston Farms also grows and packs potatoes, and bell peppers.
-
