

Strawberry

Strawberries should be bright red. The average strawberry has 200 tiny seeds on the outside. The leaf “cap” is removed before eating.

Strawberries are fruit which grow on plants.

Wild strawberries have been known since the times of the Greeks and Romans. The strawberries native to the Americas were bigger than European strawberries.

Strawberries are the most popular of all berries. However, strawberries are not a “true” berry.

California grows 83% of the strawberries grown in the United States.

VARIETIES

There are more than 70 varieties of strawberries. Strawberries are usually available almost year round, with peak season from April to July.

NUTRITION FACTS

- Fat free
