Let's Be Successful with Smart Snacks!

The Smart Snacks in School nutrition standards have been in effect since **July 1, 2014!** Here are a few reminders:

The U.S. Department of Agriculture finalized the rule for nutrition standards for all foods and beverages sold to students during the school day. The Smart Snacks in School nutrition standards apply to all foods and beverages **sold** to students outside of the school meals programs – including vending machines, a la carte, school stores, snack carts and in-school fundraising. Smart Snacks in School nutrition standards is a component of our school district's **Wellness Policy-BP 5030**.

Smart Snacks are in effect for the entire school day (midnight before to 30 minutes after the end of the school day) across the entire school campus.

Smart Snacks applies to in-school fundraising. Foods and beverages sold to students **as fundraisers during the school day** must meet Smart Snacks nutrition standards. Our state agency has set the number of exempt fundraisers at [insert number from your state agency]. There are no limits for non-food fundraisers or fundraisers that include foods and beverages that meet the Smart Snacks standards.

Smart Snacks does **not** apply to foods served, such as classroom celebrations and during evening, weekend or community events. Please note that homemade goods are not allowed for classroom celebrations, store bought items will be acceptable.

Our district is fully committed to ensuring compliance with the Smart Snacks standards. We also want to make sure you have the tools you need to find compliant products.

Students who are well nourished are better prepared to learn. By implementing consistent nutrition standards throughout all corners of the school building, we are enhancing the learning environment and contributing to the overall health and well-being of our students.

In addition, by consistently providing healthier foods and beverages outside of the cafeteria will build on the great health strides being made **in** the cafeteria.

Please contact me at 559-524-7621 if you have any questions.

Sincerely,

Jannette Garcia
Director of Child Nutrition
Sanger Unified School District

Smart Snacks in School

USDA's "All Foods Sold in Schools" Standards

USDA has established practical, science-based nutrition standards for snack foods and beverages sold to children at school during the school day. The standards allow schools to offer healthier snack foods to children, while limiting junk food.

The health of today's school environment continues to improve. Students across the country are now offered healthier school lunches with more fruits, vegetables and whole grains. The Smart Snacks in School standards build on those healthy advancements and ensure that kids are only offered tasty and nutritious foods during the school day.

Smart Snacks in School also supports efforts by school food service staff, school administrators, teachers, parents and the school community, all working hard to instill healthy habits in students.

Nutrition Standards for Foods

- **Any food sold in schools must:**
 - Be a "whole grain-rich" grain product; or
 - Have as the first ingredient a fruit, a vegetable, a dairy product, or a protein food; or
 - Be a combination food that contains at least ¼ cup of fruit and/or vegetable; or

- **Foods must also meet several nutrient requirements:**
 - Calorie limits:
 - Snack items: ≤ 200 calories
 - Entrée items: ≤ 350 calories

 - Sodium limits:
 - Snack items: ≤ 200 mg
 - Entrée items: ≤ 480 mg

 - Fat limits:
 - Total fat: ≤35% of calories
 - Saturated fat: < 10% of calories
 - Trans fat: zero grams

 - Sugar limit:
 - ≤ 35% of weight from total sugars in foods

Nutrition Standards for Beverages

- **All schools may sell:**
 - Plain water (with or without carbonation)
 - Unflavored low fat milk
 - Unflavored or flavored fat free milk and milk alternatives permitted by NSLP/SBP
 - 100% fruit or vegetable juice and
 - 100% fruit or vegetable juice diluted with water (with or without carbonation), and no added sweeteners.
- **Elementary schools may sell up to 8-ounce portions, while middle schools and high schools may sell up to 12-ounce portions of milk and juice. There is no portion size limit for plain water.**
- **Beyond this, the standards allow additional "no calorie" and "lower calorie" beverage options for high school students.**
 - No more than 20-ounce portions of
 - Calorie-free, flavored water (with or without carbonation); and
 - Other flavored and/or carbonated beverages that are labeled to contain < 5 calories per 8 fluid ounces or ≤ 10 calories per 20 fluid ounces.
 - No more than 12-ounce portions of
 - Beverages with ≤ 40 calories per 8 fluid ounces, or ≤ 60 calories per 12 fluid ounces.

Other Requirements

- **Fundraisers**
 - The sale of food items that meet nutrition requirements at fundraisers are not limited in any way under the standards.
 - The standards do not apply during non-school hours, on weekends and at off-campus fundraising events.
 - The standards provide a special exemption for infrequent fundraisers that do not meet the nutrition standards. State agencies determine the frequency with which fundraising activities take place that allow the sale of food and beverage items that do not meet the nutrition standards.
- **Accompaniments**
 - Accompaniments such as cream cheese, salad dressing and butter must be included in the nutrient profile as part of the food item sold.
 - This helps control the amount of calories, fat, sugar and sodium added to foods by accompaniments, which can be significant.

Grocery Compliant Food List

This list is an example of items that meet smart snack standards. You can find these along with other items at your grocery store.

This list is not comprehensive and is intended to provide a base-line sample of products that meet nutritional guidelines set forth in legislation.

Fundraisers and Smart Snacks: Foods Not Intended for Consumption at School

The Smart Snacks in School nutrition standards apply to any foods sold to students during the school day on the school campus, including foods sold as fundraisers.

What can we sell for a fundraiser? If the item being sold is a nonfood item or a food item that meets the Smart Snacks standards, it can be sold anytime. State agencies can permit occasional exempt fundraisers, allowing the sale of foods that do not meet the standards. Organizations planning fundraisers should work with their school administration before initiating a fundraiser to ensure compliance with the Local Wellness Policy, Smart Snacks standards, and any other local policies that may be in place.

What if the foods do not meet the standards? Generally, foods that do not meet the standards cannot be sold to students on campus during the school day. Organizations planning fundraisers of foods that do not meet the standards must work with their school administration to determine if their fundraiser can be allowed as one of the school's limited exempt fundraisers. It is important to remember that the standards do not apply during nonschool hours, on weekends, and at off-campus fundraising events, though local policies may still apply.

No more frozen pizza sales? No more cookie dough? No more Thin Mints®* cookies? Not necessarily! Many extracurricular programs, such as the school band, sports teams, and the school choir as well as youth-based community organizations such as the scouting programs rely on fundraisers to support their activities. There are ways that these groups can continue to raise money on campus under the standards, if allowed under local policies and approved by the school administration.

First, remember that *all* fundraising activities that take place outside of school are exempt from Smart Snack Standards. Just double-check your Local School Wellness Policy to see if other local school policies are in place!

Sale of frozen pizza, cookie dough and other items preordered and distributed in a precooked state or in bulk quantities (multiple servings in a package) for consumption at home is not required to meet the standards. For example, boxes of preordered Girl Scout cookies intended for consumption at home would not be subject to the standards. Students could take orders and deliver them during the school day for consumption outside of school.

Can we take fundraising orders at school? Yes. Orders may be taken at school as long as the foods being sold meet the Smart Snacks standards or are not intended to be consumed on campus during school hours and as long as students receive permission from the school.

Can we deliver the preordered fundraising items at school? Foods that have been purchased through a fundraiser may be delivered on the school campus during the school day if the foods being sold meet the standards or are not intended to be consumed on campus during school hours and as long as students receive permission from the school. However, we encourage

organizations to deliver the foods at a time when parents and caregivers are more likely to be present to collect the items, for example, during specific drop off or pickup times.

Can we sell individual food items that students can eat during the school day? If the foods being sold meet the standards, then you may sell them during the day. However, when the fundraiser includes the sale of food items that do not meet the standards, for example, a doughnut or a candy bar, the fundraiser must be considered an approved exempt fundraiser in accordance with the State agency. The fundraising organization, such as the school band, could then sell doughnuts or candy to students during the allocated exempt fundraising period.

Communication between youth-based organizations and school administration is critical when planning fundraising events on school campus during the school day.

Constructive Classroom Rewards: Promoting Good Habits While Protecting Children's Health

(Principals shall approve acceptable fundraisers prior to implementation)

Rewarding children in the classroom need not involve candy and other foods that can undermine children's diets and health and reinforce unhealthy eating habits. A wide variety of alternative rewards can be used to provide positive reinforcement for children's behavior and academic performance.

Examples of beneficial (and inexpensive) rewards for children.*

Social rewards:

"Social rewards". Which involve attention, praise, or thanks, are often more highly valued by children than a toy or food. Simple gestures like pats on the shoulder, verbal praise (including in front of others), nods, or smiles can mean a lot. These types of social rewards affirm a child's worth as a person.

Recognition:

- Trophy, plaque, ribbon or certificate in recognition of achievement or a sticker with affirming message (e.g. "great job")
- Recognizing a child's achievement on the school-wide morning announcements and/or the school's website
- A photo recognition board in a prominent location in the school
- A phone call, email, or letter sent home to parents or guardians commending a Child's accomplishment
- A note from the teacher to the student commending his or her achievement

*Some examples adapted from "Alternatives to Using Food as a Reward", Michigan Team Nutrition (a partnership between the Michigan Department of Education and Michigan State University Extension), 2004. Accessed at http://www.cspinet.org/nutritionpolicy/constructive_rewards.pdf

- Magnets
- Crazy straws
- Back scratchers
- A plant, or seeds, and a pot for growing a plant
- Books

A token point system, whereby children earn points that accumulate toward a bigger prize. Possible prizes include those listed above and:

- Gift certificates to a bookstore or sporting goods store
- Movie pass or rental gift certificate
- Ticket to a sporting event
- Puzzle
- Book
- Stuffed animal
- Magazine subscription
- Board game
- Step counter (pedometer)
- Sports equipment, such as tennis racket, baseball glove, soccer ball, or basketball

Children can be given fake money, tokens, stars, or a chart can be used to keep track of the points they have earned. Points can be exchanged for privileges or prizes when enough are accumulated.

A point system also may be used for an entire class reward. Whenever individual children have done well, points can be added to the entire class' "account". When the class has earned a target number of points, then they receive a group reward.
