

Food Safety Tips for Serving a Safe & Healthy Meal

- Wash hands thoroughly for 20 seconds with soap and warm water
- Put on a pair of clean gloves (do not reuse gloves)
- Do not touch the food or the part of the utensils used to serve the food with your bare hands
- Use the appropriate serving utensils when plating the food (each food item should have a separate serving utensil)

**Be careful of what you touch with your gloves. Do not touch your face, hair, dirty surfaces, etc. If necessary, please re-wash your hands and replace with a new pair of gloves each time before serving the food.*
