

## Welcome Back!

Food Services is excited to be welcoming students back to campus on the hybrid A/B scheduling. All students will be provided a Grab & Go breakfast each morning when arriving to school and lunch at the end of the school day at no-charge. We will be following all District protocols to ensure a safe and efficient process when students receive their meal(s).

In addition to a special treat each day, all meal kits will include milk, juice and water at breakfast and milk and juice included at lunch.

With hybrid scheduling, Food Services will provide a next day meal kit each Tuesday and Friday for students to take home.

Drive-up meal distribution will continue at all eight comprehensive high schools Monday-Thursday from 11 AM until 1 PM for all eligible persons 18 and under.
