Question: Do the vendors have to bid all items?

Answer: No

Question: What if a vendor can bid an item using different packaging and thus different pricing?

Answer: The vendors may bid separate prices for different packaging.

Question: If bidders offer a net 10 discount, will districts cut a check within the 10 day window?

Answer: No. The minimum discount allowed will be a net 14 days.

Question: Will bidders have the option to only offer delivery to certain schools within a district? For example, in SLCUSD there are some out-lying schools that may be too far for a bidder to deliver directly to.

Answer: The answer is individualized for each district. SLCUSD will allow vendors to bid individual schools. Templeton will not. Lucia Mar Unified School District also will not and for clarification, this is because there is only one delivery site for Lucia Mar, which is the Warehouse at 602 Orchard Street, Arroyo Grande, CA 93420. We are waiting for the response from Atascadero and will send a second addendum when that is received.
