In order to complete the Meal Benefits Application, the application signer must complete the following steps:

Applications/Forms

Meal Benefits Application [click here to start the application process.](#)

Reports on this page require the Adobe Acrobat Reader (free). 

Accessing the Meal Benefits Application

Step 1. Create an E-Signature PIN

If you already have a PIN or if your district does not require a PIN, skip to Step 2.

If required by your district, the E-Signature PIN allows you to submit an electronic signature with the application which is treated the same legally as a signature made on the paper application.

E-Signature ✕

You do not have an E-Signature PIN.

The **[Insert DISTRICT NAME HERE]** has adopted the use of electronic signatures for some documents. By registering and creating your electronic signature PIN you will be able to apply your signature electronically to some documents the district publishes that require your signature. Registration is easy to complete and takes less than 5 minutes.

Once registered, documents or applications that accept an E-signature may also give you the option to not use your electronic signature and instead print the document, sign, and submit the paper form. Not all documents or applications will require a PIN.

Would you like to create your E-Signature PIN now?

Notification of No E-Signature PIN Established

To create an E-Signature PIN, click the **Yes** button. The Create your PIN editor will display.

To create a PIN, enter the **PIN**, **Re-enter the PIN**, enter your current Campus account **Password** and select the **Submit** button. Your PIN is now saved within Campus and available for use with any documents or forms which

require a PIN for signature or verification. To change you PIN, go to the [Account Management](#) tool.

The screenshot shows a dialog box titled "E-Signature" with a close button (X) in the top right corner. Below the title bar, it says "Create your PIN ?" followed by a question mark icon. There are three input fields: "PIN" with a 6-character masked field, "Re-enter PIN" with a 6-character masked field, and "Password" with a 10-character masked field. At the bottom, there are two buttons: "Submit" and "Cancel". Below the dialog box, the text "Creating an E-Signature PIN" is displayed.

Step 2. Review the Letter to Household

The application signer must review the Letter to Household prior to beginning the application process. This letter contains important information and guidance about the online Meal Benefits Application.

Verifying Household Members

Adding a Household Member

If a household member does not appear in the list, you can manually add them. This often occurs when someone has just moved into the household or the person filling out the application does not have access to a specific family member within the Portal.

The manually added student household member must exist in Campus at the time the FRAM Processor processes the application. If the manually added student member does not exist within Campus, the application cannot be processed and must be suspended if the district cannot confirm the validity of the student member.

1. Click the **Add Household Member** button.

Result

The **Add Student/Non-Student Member** editor displays.

2. Select whether the person is a **Student** or **Non-Student** and click the **Save** button.

A **Student** is a household member who will be enrolled in the district during the school year.

A **Non-Student** is any household member who will not be enrolled in the district during the school year.

Result

The **Add Student/Non-Student Member** window displays.

3. Enter information about the household member in all required fields and select the **Save** icon. Required fields display with a red asterisk.

Result

The Household Members Confirmation screen displays. The added household member appears on the Household Members screen with the words (Manual Add) appearing after the person's name. To remove the person from the household, select the black X on the far right of the screen.

The School and Grade (and Student Number, if known) fields are important for application processing as the FRAM Processor uses these fields to better identify and match this student to records within Campus.

Indicating Household Member Income

Step 11. Review Household Information for Accuracy

Now that household members (and their benefits) have been identified, household information must be reviewed for accuracy.

The **Total Income** column lists the total amount of money each household member makes based on the frequency noted (i.e., monthly, yearly, etc). Frequencies listed in this column are automatically annualized across all members. The **Total Household Income** field indicates the total amount of income the household (all members included) earns per year. The **Total Household Size** indicates the total amount of members within the household.

Review all the information on the screen and if it is accurate, select the **Next** button. If this information is incorrect, select the **Previous** button to go back to the previous step and correct inaccurate information.
