**VII. Progress Report:** Indicate any additional wellness practices and/or future goals and describe progress made in attaining the goals of the local wellness policy

A few of the Wellness Committee members attended a training, "Steps to Implementing a Wellness policy," toward the end of the school year. Our hope from the training was to gain knowledge on successful measurable goals and listen to other success stories. We decided to conduct more nutrition education in classroom and taste tests with students that held a nutrition education piece. In April/May we will conduct an in depth taste test and evaluate the results. We are also planning a taste test for the Fall of the 2018 2019 school year in which we will give students a survey beforehand so they may pick which items they would like to taste test. We will then conduct the taste test with a nutrition education instruction. A survey will be distributed with the taste to see what food item students will like to see on the menu. We will evaluate the taste test by adding that menu item to the menu and seeing if our meal participation increases.
