

Make it a Rainbow Cafeteria Tours Kindergarten

Meet your Lunch Staff and Get to Know the Cafeteria

The school cafeteria can be intimidating for our youngest students. The cafeteria may be the first meals students are eating away from families and students are learning to make food choices on their own for the first time.

Our Kinder tours allow our students to meet the cafeteria staff, take a peek behind the scene-where the food is made and learn about our healthy school meals. Students will meet our Nutrition mascot, Neal the Nutrition Seal and make rainbow smoothies while learning about fruits and vegetables.

This 30 minute program provides the building blocks to encourage lifelong healthy eating through introducing and promoting school meals and fruits and vegetables to our youngest students.
