# Eshleman Fruit Farm

## ABOUT

Eshleman Fruit Farm is a family owned farm in operation since 1977. Owners Rich and Betty Eshleman started growing fruit in Clyde at the former Goltz Fruit Farm, with forty acres of fruit. Today they continue to grow in acreage with sweet cherries, plums, asparagus, peaches, and one hundred fifty acres of apples. All their fruit picking is timed for optimum flavor to ensure a great eating experience.

Eshleman Fruit Farm has an Integrated Pest Management practitioner to minimize chemical use and a solar array that provides 90+% of their packing house power generation needs.
