To Whom It May Concern:

The Richard B. Russell National School Lunch Act provides in Section 12(n) the Buy American provision which requires that school food authorities (SF As) operating school meals programs purchase domestically produced (grown) and processed foods, to the maximum extent practicable.

For products procured by SFAs for use in the Child Nutrition Programs using nonprofit food service account funds, the product's food component is considered the agricultural commodity. FNS defines food component as one of the food groups which comprises reimbursable meals. The food components are: meats/meat alternates, grains, vegetables, fruits, and fluid milk. Please refer to 7 CFR 210.2 for full definitions. Any product processed by a winning vendor must contain over 51% of the product's food component, by weight or volume, from U.S. origin. This definition of domestic product serves both the needs of schools and American agriculture. Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are considered domestic products under this provision as these products are from the territories of the U.S.

Please be advised that all J&J Snack Foods/Country Home Bakers products meet the Buy American Provision.
